

SKYNE PARALLEL 90

Skyne Parallel is the new lighting profile with an integrated Parallel spacer connector, designed for installations without external connections and featuring an extremely discreet, minimalist design. The integration of the Parallel spacer directly onto the aluminum profile, with a 90° light beam angle from the surface, creates a clean and simple lighting effect, free from additional components system with switch modules and standard electrical sockets at 220V.

TECHNICAL SPECIFICATIONS

Standard	IEC/EN 602208 IEC/EN 60670-1
Material	Aluminium (profile) Polycarbonate diffuser
Treatment	Natural Aluminium Painted Aluminium
Voltage	24V
Power	8,8 13,2 17,6 26,4 35,2 52,8 W
Protection grade IP	IP40 IP65
Impact resistance	IK10
Isolation class	I
Entry fitting	Ø 22
Storage temperature	-50°C - +90°C
Operating temperature	-40°C - +90°C
